

National Education Policy 2020

CURRICULUM FRAMEWORK FOR FOUR-YEAR UNDER GRADUATE PROGRAM IN COMMERCE B.Com (Honors)

With Effect from the Academic Year 2021-22

SEPTEMBER 2021

National Educational Policy 2020:

The approval of the National Education Policy (NEP) by the Ministry of Human Resource Development, Government of India has been well deliberated as discussed from the last 4 years and more. The advent of industry 4.0 scenario has led our current system of education outdated. Hence, the NEP is designed to contemplate the current skill requirements. The Indian education system with its earlier policies on education has greatly led to creation of fragmented system of education. However, bringing the whole system into one large umbrella remains a key issue. The current NEP has attempted to cure the same by getting rid of standalone institutions and institutions of affiliated nature and proposed formation and upgradation of institutions to offer multidisciplinary education. Multidisciplinary education system with inbuilt flexibility for both undergraduate as well as post graduate and research level is a key highlight of the NEP. It focuses on promoting and building vocational skills/skill enhancement courses, right from the school level, which can ease the burden on the employment opportunities and supply of proficient/talented workforce. As the experts rightly put it as the syllabi which academia develops should be student centric rather than teacher centric, which used to be so far. As already the Union Cabinet has approved the NEP 2020, it aims to pave way for transformational reforms in school and higher education systems in the country. This policy will replace the 34- year-old National Policy on Education (NPE), 1986.

Vision of the National Education Policy 2020

- An education system that contributes to an equitable and vibrant knowledge society, by providing high-quality education to all.
- Develops a deep sense of respect towards the fundamental rights, duties and Constitutional values, bonding with one's country, and a conscious awareness of one's role and responsibilities in a changing world.
- Instils skills, values, and dispositions that support responsible commitment to human rights, sustainable development and living, and global well-being, thereby reflecting a truly global citizen.

This National Education Policy 2020 is the first education policy of the 21st century and aims to address the many growing developmental aspirations of our country. This Policy proposes the revision and revamping of all aspects of the education structure, including its regulation and governance, to create a new system that is aligned with the aspirations & goals of 21st century education, including SDG4, while building upon India's traditions and value systems. NEP aims for India to have an education system by 2040 that is second to none, with equitable access to the highest-quality education for all learners regardless of social or economic background and seeks to "ensure inclusive and equitable quality education and promote lifelong learning opportunities for all" by 2030." The whole of the NEP policy is a medication to cure the shortcomings in the education system for the last 35 to 36 years. The failure or success of the NEP will rely completely on the implementation and its acceptance by the stakeholders. For which we need to join hands in strengthening the system.

EXECUTIVE SUMMARY

Higher Education is a vital contributor for Economic Development of the nation. It plays a major role in improving human well-being and developing Indian Economy, since it serve as a center for developing ideas and innovations. The Sustainable Development Goal 4 (SDGs4) also advocates the quality of education, which seeks to "ensure inclusive and equitable quality education and promotes lifelong learning opportunities for all" by 2030 for Inclusive Economic Development. Approximately half of India's 1.2 billion people are under the age of 26 and by 2020, it is forecasted to be the youngest country in the world with a median age of 29 including Karnataka. To reap the benefits of this demography, the Government of Karnataka and Karnataka State Higher Education Council (KSHEC) proposed an idea of developing a Curriculum Framework based on New Education Policy guidelines for both Undergraduate and Postgraduate programs across the faculty disciplines in the state of Karnataka for strengthening the 'Quality of Higher Education'. Accordingly, Tumkur University, Department of Commerce has adopted the Curriculum Framework for Four-Year under Graduate Program in Commerce, B.Com (Honors) given by the NEP Curriculum Draft Committee for B.Com, Government of Karnataka

Introduction

Commerce Education was started in India as early as 1886, when the first Commercial School was started in Madras. By 1960 Commerce became a special subject of study in 35 Universities. It endured significant changes over the years. After 90's, Commerce emerged as one of the most potential pursuits in India due to higher availability of jobs and for entering into entrepreneurship forever growing Indian economy and need for skillful business minds. Commerce Education has gained considerable importance in India. This is evident by the fact from 0.36 lakh enrolments in 1950-51 in Commerce Program, reached over 38.6 lakh during 2015-16 (AISHE Report). The said facts indicate the significant measureable progress of Commerce Education in India. At the same time, there is dire need to develop the quality and raise the bar to meet the international standards, since modern economies rely on cross-border transactions, the free flow of international capital and the majority of the financial transactions occur across borders, and that number is expected to grow. With the changing trends in the Economy, there has been an explosion of knowledge and technologies in all the spheres. In this situation, it is important that, Commerce Education Eco-System does not face compromise with respect to quality as it provides ample opportunities to Graduates & Post Graduates for employment and self-business establishment. Being successful in today's global marketplace is about being creative, making accurate decisions and taking calculated risks. The Commerce Education develops leaders with the skills, knowledge and mind-set to make a real, practical difference to people's lives and the success of businesses and economies. The Commerce Education provides the perfect learning environment where students, academicians and business houses come together to create high quality and unique learning experiences. High-Quality Commerce Education is essential in India. Use of technology is one of the influential ways to enhance the students' ability to meet the ever changing necessities of the business houses and society. In this connection, the Curriculum is designed to give students an in-depth mastery of the academic knowledge with hands-on-approach to bridge the gap between the industry and academia to produce a better quality of students for employment and entrepreneurial opportunities.

"Commerce Education is a form of instructions that directly as well as indirectly prepares a businessman for his calling. It prepares students for socially desirable and personally fruitful careers in the field of business and finance. While pursuing higher education in Commerce in India, students acquire the knowledge of business trade, fluctuations in the market, fiscal policies, basics of economics, industrial policies, etc. The education imparted to Commerce students tends to equip them with a number of specialized skills that help them excel in different functional areas of Trade, Industry and Commerce."

Need for Curriculum Development

As per the National Education Policy initiatives, it is intended to formulate Curriculum to eliminate the disparities among the students studying in different Universities/Institutes. In addition to above the Members of the Committee also identified the need for the Development of Curriculum framework for Commerce Education:

- 1. Indian Business Environment: Due to LPG of Indian Economy, industry has undergone a lot of changes, growing MSME sector and Khadi & Village Industries, Non-profit and Social Enterprises, Emerging Entrepreneurship, State and Central Government initiatives, there are lot of opportunities for young people, the Curriculum helps the students to explore and utilize the opportunities created by the present business environment.
- 2. Credit Disparities: The Choice Based Credit System is not introduced in true sense as well there is credit disparity from one University to another/One Institute to another. To remove this credit disparities, which was burdening the students, Curriculum Framework is developed, which helps the BOS of the Universities/Institutes to develop their own Scheme of Teaching and Evaluation as per the Curriculum Credit Framework.
- 3. **Program Learning Outcomes (PLOs) and Sustainable Development Goals (SDGs):** In the New Curriculum, the courses would be mapped to identify their contribution towards PLOs and SDGs, which in turn help Universities/Institutes in their Accreditation and Ranking.
- 4. Skill Development Courses: The focus of existing Master Programs in Commerce is less on skill development. The New Curriculum has given more emphasis for the skill development by considering the need of the Fourth Industrial Revolution components namely Automation, Digital platforms, AI, Block Chain Technology, IOT, Spread Sheet, Analytics etc., which enables the students to acquire the specialized skills and applied competencies in the field of Commerce and Business.
- 5. Discipline Specific Electives: The existing Programs in Commerce in many Universities/Institutes have limited number of Disciple Specific Electives and these are almost like core courses, hence wider choice of elective courses are proposed to introduce in the New Curriculum Framework.
- 6. **Multidisciplinary Courses:** New Curriculum helps the students to choose the courses of their choice from other streams/across faculty. Therefore, students will be capable of making a positive contribution to Commerce, Trade and Industry in the national and global context by drawing the knowledge from the different disciplines, which is socially desirable.

Pedagogy

In addition to Conventional Time-Tested Lecture Method, the Members of the Curriculum Development suggest the following approaches:

1. **Case Based Learning:** Practical exposure can be given to students through Case based learning/critical learning tool. It enhances skills of students in analyzing the organizational problems and learning to arrive at critical decisions. They learn to apply concepts, principles and analytical skills to solve the real situation problems.

2. Experiential/Live Projects/Grass Root Projects: To bridge the gulf between the theory and practice, the students have to be encouraged to take up experiential projects/Live Projects/Grass Root Projects in companies/organizations/factories.

3. **Team Spirit and Building:** To internalize the core curriculum, working in teams and developing team spirit is essential. Interdisciplinary learning across outside the faculty would help students in equipping with these skills.

4. **ICT Teaching with global touch:** With the use of modern ICT technology students' learning in class room marches towards digitization. Getting connected to people through e-mode who are located all over the world and who bring real-time insights from their industries, their customers, happenings in their local place and environment. This sparks different ways of thinking as well as cover the conventional material.

5. Leadership Building: Apart from developing a strong background in the functional areas of Commerce and Business, the Model Curriculum focuses on developing New Age Leadership capabilities among the students.

6. **Emphasis on Indian Business Models:** Over the past two decades, several Indian Business domains and organizations have made remarkable contribution indeveloping innovative business models by occupying a space in the global business scenario. The academia can make use of such examples in the pedagogy.

Guidelines for Continuous Internal Evaluation and Semester End Examination

The Members of the BOS Committee deliberated on the framework of Continuous Internal Evaluation (CIE) as well Semester End Examination (SEE) for the courses. The CIE and SEE will carry 30% and 70% weightage each, to enable the course to be evaluated for a total of 100 marks, irrespective of its credits. The evaluation system of the course is comprehensive & continuous during the entire period of the Semester. For a course, the CIE and SEE evaluation will be on the following parameters:

\$1.No.	Parameters for the Evaluation	Marks
	Continuous Internal Evaluation (CIE)	
1	Continuous & Comprehensive Evaluation (CCE)	10 Marks
2	Internal Assessment Tests (IAT)	30 Marks
	Total of CIE (A+B	40 Marks
3	Semester End Examination (SEE)	60 Marks
	Total of CIE and SEE ($A + B + C$	100 Marks

- a. **Continuous & Comprehensive Evaluation (CCE):** The CCE will carry a maximum of 10% weightage (10 marks) of total marks of a course. Before the start of the academic session in each semester, a faculty member should choose for his/her course, minimum of four of the following assessment methods with 7.5 marks each:
 - i. Individual Assignments
 - ii. Seminars/Class Room Presentations/ Quizzes
 - iii. Group Discussions / Class Discussion/ Group Assignments
 - iv. Case studies/Case lets
 - v. Participatory & Industry-Integrated Learning/ Filed visits
 - vi. Practical activities / Problem Solving Exercises
 - vii. Participation in Seminars/ Academic Events/Symposia, etc.
 - viii. Mini Projects/Capstone Projects
 - ix. Any other academic activity
- b. Internal Assessment Tests (IAT): The IAT will carry a maximum of 30% weightage (30 marks) of total marks of a course, under this component, two tests will have to be conducted in a semester for 30 marks each and the same is to be scaled down to 30 marks. Standard format is given below.
- c. In case of 50 percentage of CIE weightage courses, faculty members can choose assessments methods accordingly for the required marks as mentioned above.

Template for IAT					
Internal Assessment Test Bachelor of Commerce (B.Com-Honors)					
Course Code: Duration: 1 Hour	Name of the Course: Total Marks: 30				
SECTION-A I. Answer any two of the following questions. Questions are as	ked on Remembering. (4 x 2= 8)				
1. 2. 3.					
SECTION~ B II. Answer any two of the following questions. Questions Understanding and Applying.					
4. 5.	(2 x5= 10)				
6. <u>SECTION~ C</u>					
III. Answer any one of the following questions. Questions are asked evaluating.7.8.	d on analyzing and (1*12=12)				

II. Semester End Examination (SEE):

The Semester End Examination for all the courses for which students who get registered during the semester shall be conducted. SEE of the course shall be conducted after fulfilling the minimum attendance requirement as per the University norms. The Members of the Committee also deliberated on the framework of Semester End Examination (SEE) and suggested to give autonomy to Board of Studies (BOS) of Universities/Institutes to have their own Framework. Accordingly, Tumkur University BOS Committee for B. Com Has suggested the following Framework for End-Examination.

Proposed N	Aodel Question Paper for Seme _ Semester B.Com. Examination (New Syllabus 2021-2	n, Month/Year	
	COMMERCE

11.			

Learning Outcome Based Curriculum Framework

i. Intended Learning Outcomes

The Bachelor of Commerce (B.Com) has the objective of preparing graduates who embody the University graduate attributes. The proper and effective identification and definition of graduate attributes and their successful attainment at the end of the programme will result in graduate outcomes. The graduate attributes and the graduate outcomes will shape the graduate profile. It aims to provide students with the knowledge, skills, attitudes, values and habits on the one hand and the tools of analysis and the holistic development of the personality on the other with which to understand and actively participate in the modern business and economics world, to prepare them for subsequent graduate studies and to achieve success in their professional careers.

1. Graduates of this degree will be knowledgeable across the core requirements of the degree. Graduates will be able to:

- Demonstrate knowledge of major theories and model in key areas of Accounting, Marketing, Finance, Taxation and Other management Domain of knowledge .
- Analyse organizational problems and generate pragmatic/realistic solutions based on academic research in Commerce.
- Demonstrate knowledge of microeconomic theory as it relates to markets, firms, government policy and resource allocation and its utilization.
- Demonstrate knowledge of macroeconomic theory as it relates to current macroeconomics policies, issues, strategies and practices.
- Demonstrate knowledge of key concepts underlying quantitative decision analysis.
- Apply basic mathematical and statistical skills necessary for analysis of a range of problems in economics, actuarial studies, accounting, marketing, management and finance.

2. Graduates of this degree will be knowledgeable of an area of specialization in the faculty Graduates, subject to their areas of specialization, will be able to:

• Demonstrate knowledge of the theories, concepts and findings of the faculty specializations with a firm grounding based on evidence-based and research informed practices through theory-research practice linkages; capable of rigorous analysis and interpretation with a focus on logical reasoning.

3. Graduates of this degree will be knowledgeable domestic and international economic and organizational environments.

Graduates will be able to understand the synergistic and symbiotic relationships among the key elements of an organization such as people, structure, task, technology, culture, strategies, systems, processes and environment, decisions- actions-consequences linkages in unfamiliar contexts, and analyze commerce/business issues in the international contexts; Compare international contexts and issues through the lens of the commerce disciplines; evaluate

national and international debates and discussions on economic, commercial and business issues.

4. Graduates of this degree will be knowledgeable of disciplines outside the faculty.

Graduates will be able to : Demonstrate an understanding of the Concepts, principles, techniques, theories and arguments of their chosen areas of study outside the core disciplines of economies and business.

ii. Generic Skills

Graduates of the degree will have the capacity to

- Work collaboratively and productively in teams.
- Use basic mathematical and statistical tools of analysis independently.
- Apply critical and analytical skills and methods to the identification, evaluation and resolution of complex problems in unfamiliar contexts.
- Engage confidently in self-directed study and research.
- Communicate ideas effectively in written, oral and nonverbal formats.
- Operate effectively in multicultural and diverse environments.
- Use effectively information from diverse sources.
- Be proficient in the use of appropriate information and communication technologies .
- Critically evaluate new ideas, research findings, methodologies and theoretical frameworks in a specialized field of study.
- Recognize and understand the ethical responsibilities of individuals and organisations in society and capable of resolving ethical issues and dilemmas in the decision-making process.

iii. Graduate Attributes

Bachelor of Commerce graduates will have the following attributes and skills

(A) Academically excellent

- (1) Analysis and evaluation of evidence in the commerce disciplines in support of an argument, proposition or solution to problems in organisations and in society.
- (2) Strategic and critical thinking in relation to business and commerce- related issues.

(B) Research Skills

- (3) The retrieval of information from variety of business, commerce and economics sources.
- (4) Knowledgeable across disciplines with a kaleidoscopic view.
- (5) Synthesis of knowledge across disciplines.
- (6) Problem solving through the application of appropriate and relevant theories principles and data.
- (7) Skilled in the use of computer systems and software used in commerce and business through practical assignments, exercises and demonstrations.

C) Attuned to cultural diversity

(8) Aware of Cultural difference and able to account for these in developing solutions to commerce and business-related problems.

D) Active global citizens

- (9) Effective communicators on matters related to economics and commerce.
- (10) Participants in discussion and debate on national and internationalissues related to the disciplines of the faculty.

E) Leaders in communities

- (11) Effective decision makes in business and commerce through meaningful and impactful community engagement practices.
- (12) Ethical and collegial in professional practice.

Name of the Program: Bachelor of Commerce (B.Com.) Course Code: B.Com. 2.2

Name of the Course: Business Mathematics

Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	3+0+2 Hrs	56 Hrs

Pedagogy: Classrooms lecture, Case studies, Tutorial classes, Group discussion, Seminar & field work etc.,

Course Outcomes: On successful completion of the course, the Students will be able to

- a) Understand the number system and indices applications in solving basic business problems.
- b) Apply concept of commercial arithmetic concepts to solve business problems.
- c) Make use of theory of equation in solving the business problems in the present context.
- d) Understand and apply the concepts of Set Theory, Permutations & Combinations and Matrices solving business problems.
- e) Apply measurement of solids in solving simple business problems.

Syllabus:	Hours
Module No. 1: Number System and Indices	12
Introduction - Meaning - Natural Numbers - Even & Odd Numbers - Prime, Ratio	onal Number and
its features & Irrational Numbers - simple problems on finding sum of natura	l, Odd and Even
numbers- HCF and LCM, problems thereon; Indices-Introduction,	
Laws of indices, application of laws for simplification, simple problems.	
Module No. 2: Commercial Mathematics	12
Introduction - Meaning of Simple and Compound interest and problems thereon,-	
Annuities, types & problems on present and future value of annuity; Ratios and Pre	oportions~
meaning and problems thereon-problems on speed, time and work.	-
Module No. 3: Theory of Equation	10
Introduction - Meaning-Problems on Linear equations and solving pure and adfect	ted quadratic
equations (factor and Sridharacharya methods only), problems on Simultaneous	
equations (Elimination method only).	
Module No. 4: Set Theory, Permutations & Combinations and	10
Matrices	12
Introduction - Meaning & types of sets-Laws of Sets-Venn diagram-problems there	on; Meaning and
problems on permutations and combinations; Matrices-Meaning & types of	, 0

problems on permutations and combinations; Matrices-Meaning & types of Matrices, simple problems on addition, subtraction and multiplication.

10

Module No. 5: Progressions

Introduction, Meaning of Arithmetic Progression (A.P.), nth term of an Arithmetic progression Geometric Progression (G.P.), and sum of the number of terms in Arithmetic progression and Geometric progression. Harmonic Progression (H.P.) – Meaning only. Problems on AP and GP pnly

Skill Developments Activities:

- 1. Show the number of ways in which your telephone number can be arranged to get odd numbers.
- 2. Visit any Commercial Bank in your area and collect the information about types of loans and the rates of interest on loans.
- 3. Use Matrix principles to implement food requirement and protein for two families.
- 4. Measure your classroom with the help of a tape and find the cost of the carpet for the floor area of the classroom.
- 5. Any other activities, which are relevant to the course.
