Message from the Vice-Chancellor

Dear students,

I am delighted to welcome you to the corridors of knowledge at Tumkur University. We are indeed a young university, but our ambition is to transform ourselves into torchbearers of knowledge creation on a par with the global standard. We invite you to be part of this transformation.

We, at Tumkur University, have created an ethos that is conducive to teaching, learning, research and extension activities. Adequate infrastructural facilities have been created to ensure the quality of life and learning on the campus. We are equipped with a central library that houses treasures of learning resources, besides state of the art computing and networking facilities.

While higher education in India is expanding, our interdisciplinary curriculum modules take you to the frontiers of contemporary intellectual life. The second cycle of our CBCS includes revised syllabi that prepare you not only for the job market but also for leading a good life in the twenty-first century, which expects competent and responsible citizenry. Accordingly, our teaching fraternity assures you great moments of learning experience in classrooms by inculcating in you the skills required for the application of knowledge in real-life situations. Further, the University creates a wide space for co-curricular practices that add to the intellectual life of the campus.

I wish you good luck and look forward to your intellectual growth.

Professor Y S Siddegowda
Vice-Chancellor
Tumkur University, Tumakuru

Message from the Registrar

Greetings from Tumkur University!

We are happy about you choosing the Tumkur University as your destination for higher learning. Our University, established in 2004, has come a long way in fulfilling the educational and societal needs of Tumkur region.

We have not only upgraded our infrastructural facilities on campus but also the profile of disciplines across different knowledge systems. ABOUT THE UNIVERSITY

Tumkur University, established in the year 2004, has gained significance as one of the young universities in the country and has been recognized as an institution of higher learning on par with high profile national institutions. It is a State University, established to cater to the educational needs of Tumakuru district where the majority of students hail from rural background.

Since its inception, the University has been witnessing tremendous growth in the development of its academic profile and infrastructural facilities. Within a short span of thirteen years, the University has been successful in being recognized as an Institute of National Eminence by the UGC, besides being recognized under 12 (B) of the UGC Act 1956 and also successfully gaining 'B' grade by the NAAC accreditation.

Seventeen Departments of Postgraduate Studies and Research in the faculties of Science and Technology, Arts, Commerce and Management; two Constituent Colleges, the University College of Arts and the University College of Science; and more than eighty-six affiliated Colleges constitute the universe of the Tumkur University. The ever swelling academic profile of the University constantly witnesses the highly qualified faculty of the University who have been regularly publishing scientific and research papers in refereed international journals and other new media, in addition to participating in conferences, workshops and other academic events.

The University offers PhD Programmes in all the faculties. The research profile of the University includes 62 Research projects from various funding agencies such as Indian Space Research Organization (ISRO), Department of Science and Technology (DST), Science and Engineering Research Board (SERB), UGC, ICSSR, ICHR, Vision Group on Science and Technology (VGST), Government of Karnataka, and the British Council, etc.

The *Prasaranga*, publication division of the University, has so far brought out several research-based books, besides bringing out a University Newsletter and two scholarly refereed journals including ***Pragmata: Journal of Human Sciences and Lokajana: Journal of Cultural Studies in Kannada***.

We have also upgraded our infrastructure by making a room for Post Office and Health Centre, among other service facilities. Besides, you can let your eyes feast on the beautification of the campus.

Our teachers, while undertaking teaching in their respective disciplines, constantly involve themselves in cutting-edge research.

All in all, the Tumkur University is an ideal place for two years of your higher learning.

STUDENT SUPPORT FACILITIES AND SERVICES

LIBRARY

The University Library is a centre of information and learning resources meant for the academic community of the University. The Library is catering to the information needs of faculty, research scholars and students in Arts, Humanities, Social Sciences, Management, and Natural Sciences. The main objective is to make the Library the most effective Learning Resource Centre. For the benefit of students, the Library has created a catalogue of e-resources

including Online Public Access Catalogue (OPAC), Competitive Learning Corner, Digital Library for accessing UGC INFLIBNET e-resources and a reference section with wireless Internet facility.

INTERNAL QUALITY ASSURANCE CELL (IQAC)

University has constituted an IQAC based on the UGC and NAAC guidelines and it monitors the internal quality in terms of academic teaching and research. The IQAC has actively been contributing to the academic development of the University.

RESIDENCE FACILITIES FOR STUDENTS

Students hailing from socially and economically marginalized groups (SC/ST) will be provided with hostel facilities. The hostels are maintained with the financial support provided by the Social Welfare Department, and the regulations of the Social Welfare Department and the University are followed while admitting the students to the hostels. Hostel facility for women is also available. Further, a separate hostel is available for BCM students. Admission to the hostels will be made through the Selection Committee as per the University rules.

DIRECTORATE OF STUDENT WELFARE

For the benefit of the students, the University has established the Directorate of Student Welfare, which facilitates the award of scholarships, career guidance and offers counseling to the students.

DR. B.R. AMBEDKAR STUDY CENTRE

Tumkur University proudly upholds the principle of social justice. In order to give an intellectual and philosophical framework to the education of the socially marginalized students, we have established Dr. B.R. Ambedkar Study Centre. While propagating the ideas and ideals of Dr. B.R. Ambedkar, the Centre provides an opportunity to several students to undertake scholarly enquiry and higher studies on the thoughts of Dr. B.R. Ambedkar. Besides, the Centre is committed to

of

develop appropriate methodologies and pedagogical practices to translate Dr. B.R.Ambedkar's ideas into practical propositions and policy frameworks. To this effect, the Centre has successfully been conducting several academic and research programmes and workshops for the students and faculty.

SCP/TSP PROGRAMME

SCP/TSP Cell of the University is actively engaged in planning and executing several programmes for the benefit of SC/ST students pursuing postgraduate studies in the various departments of the University. Some of the programmes undertaken include skill development workshops, better facilities for student residences, special library facilities and enhanced support for sports and cultural activities.

SC/ST CELL

The SC/ST Cell at the University assists the SC/ST students in their overall development. It monitors the implementation of various welfare programmes for the benefit of the SC/ST students.

LIAISON OFFICE FOR DIFFERENTLY ABLED PERSONS

The University is committed to providing an inclusive environment for persons with disabilities. In order to look after the welfare of persons with disabilities, a liaison officer has been nominated. The liaison officer acts as single window system with respect to issues of persons with disabilities. For any information, clarification, suggestions, guidance, solutions for their problems or any kind of support, the students with disabilities may contact the liaison officer **Dr. Umesha. S.E (Mob: 9480662242)**.

COMPLETE Wi-Fi ENABLED CAMPUS

The University campus is completely enabled with wireless network. This provides seamless Internet access to teachers, research scholars and students. Instant access to a wide range of information resources has also been made available. The University has already provided User IDs and passwords to the faculty for utilizing internet through Wi-Fi all over the campus, and the same facility has also been extended to all the students.

COMPUTING FACILITIES

The University has sufficiently upgraded its technological base of the infrastructure which is testified by the use of computers since its very inception both in its academic and administrative activities. The University has realized the demands of the job market and concernedly considers the training of the students in computing skills as a necessary preparation for higher learning in all the disciplines. Hence, we create conditions for acquiring computing skills through computer labs.

PRASARANGA

Established in 2011, Prasaranga – the Publication Division of the University is entrusted with the responsibility of bringing out scholarly books and journals. Besides, Prasaranga has been regularly organizing lecture series, seminars, dialogues with intellectuals and such other programmes. Kannada translation of first four volumes of Indira Gandhi National Centre for Arts' prestigious publication *Kalatattvakosha* edited by Prof. Kapila Vatsyana; Seminar on "*Neera (Palm Nectar) Policy*"; lecture series-dialogue with intellectuals under the series "*Thiliva Tejada Nade*"; interaction with social thinkers – these are some of the initiatives of Prasaranga. *Lokajnana*, a triannual journal of research on cultural studies in Kannada, and *Pragmata*, a scholarly journal in English are published by Prasaranga.

LANGUAGE LABORATORY

The majority of students admitted to the University do not have adequate exposure to the English language. In this regard, considering the importance of language competence in the academic development of learners, the University has established a language laboratory. The Lab offers its services by customizing its resources so as to enhance not only the day-to-day communication skills of the students but also to develop their English language skills for higher academic purposes.

GAMES AND SPORTS

The concern of the University for holistic development of the students ranges from curricular to co-curricular and to extra-curricular activities. The University sufficiently provides opportunities for the students to excel in various disciplines of sports. The provision for various outdoor games is phenomenal as the sprawling campus boasts of well-maintained large play grounds for cricket and football. Separate courts for basketball, volleyball and tennis provide greater opportunities for the sports-aspirants.

CO-CURRICULAR ACTIVITIES

With a view to constantly upgrade the knowledge base of the students, and to expose them to current researches, the PG Departments of the University are engaged in conducting national and international conferences, seminars and symposia. Special lectures from eminent educationists and practitioners from industry, NGOs and research institutes are regularly arranged to make students transcend the boundaries of the syllabi.

NSS

The National Service Scheme Wing of the University has been doing yeoman service in realizing the vision of NSS scheme – “Development of Villages is the development of the nation”. The University unit has conducted several camps in different villages and has been monitoring the NSS activities of the affiliated colleges very effectively.

INTERNATIONAL CENTRE

One of the aims of the University is to act as a link between local aspirations and global opportunities. The International Centre at the University coordinates the academic collaborations with foreign universities and other educational institutions. Student and faculty exchange programmes and other academic collaborations with international institutions are in pipeline.

PLANNING MONITORING AND EVALUATION BOARD (PMEB)

University has established a PME Board according to the guidelines of KSU Act 2000 which is responsible for a holistic growth and planned development of the University.

CENTRE FOR WOMEN’S STUDIES

University has established a Centre for Women’s Studies with funding from the UGC to facilitate study and research on problems of women. The objectives of the Centre are to globally support women’s studies, besides offering academic services, and to create social awareness about gender equality and women’s human rights. The Centre has organized several programmes in this regard.

PLACEMENT CELL

The University has constituted a placement cell to meet the career aspirations of its students. It acts as an interface between the recruiting organizations and the students. The Cell facilitates campus interviews and several other programmes for the benefit of the students.

GUEST HOUSES

The University has two well-furnished guest houses. Faculty Guest House is available for accommodating the teaching faculty members who come from other universities on examination work, evaluation, conferences, seminars and such other academic assignments. Pandit Madan Mohan Malaviya Bhavan a fully-furnished air-conditioned state-of-the-art guest house for accommodating VIPs. Named after the great educationist and visionary Pandit Madan Mohan Malaviya, the Bhavan houses rare photographs, books and other important artefacts depicting his life. This is the University's tribute to the luminary.

CBCS: CURRICULUM

The University, from the academic year 2014-15, has introduced the Choice-Based Credit System (CBCS). The CBCS provides students with diverse learning opportunities, and enhances the quality of teacher-student interaction. The system has a greater advantage over the traditional systems of teaching and learning in creating conditions for students to learn independently across the disciplines. As an interdisciplinary enterprise, the CBCS facilitates continuous learning and evaluation. In a nutshell, this system, which is designed to recognize the capability and individual talent of the student, makes the imparting of education learner-centric. The syllabi have been revised and will come into effect from the academic year 2018-19.

Advantages of CBCS:

- ✦ Flexibility in interdisciplinary learning.
- ✦ Continuous assessment reduces the semester-end examination burden and also provides for the self-assessment of students, opening up opportunities to improve on the deficiencies.
- ✦ It facilitates more interaction between the teacher and the students.
- ✦ It brings in transparency, objectivity and quality in teaching and learning.

FACULTY OF VARIOUS DISCIPLINES

The University has constituted various faculties under Section 34 of the KSU Act, 2000. Each faculty comprises a number of Departments of Studies and Research. The various faculties and the respective Departments on campus are as follows:

Department of Studies and Research in Political Science

The Department offers Postgraduate and doctoral programmes in the discipline of Political Science. From the academic year 2014-15, post-graduate programme in Public Administration has been introduced. The distinctive approach to the study of Politics has been designed in the Department in such a way that it encourages the students to explore the interconnectedness of political philosophy, contemporary events, institutions and policies. Further, the Department consists of faculty members whose areas of research range from Political Philosophy, Contemporary World Affairs to Development Politics. There are 20 research scholars working on many topics and some of the students got awarded. The distinction of the alumni is such that many of our former students are in various Government and Non-Government services and some of them have cleared Civil Service, NET and SLET Exams.

Courses offered: M. A. Political Science

Eligibility for M. A. Political Science:

- ✦ Candidates who have secured an aggregate of 40% in all subjects and 50% in Political Science at the Bachelor's degree. (45% for SC/ST and Category-I in Cognate Subjects)
Or
- ✦ Candidates who have studied Public Administration and secured at least 50% at the Bachelor's degree. (45% for SC/ST and Category-I in Cognate Subjects)
Or
- ✦ Candidates who have studied Political Science as a Subject in the first three years of Integrated B.A.B.L/B.A.LL.B Courses.

Department of Studies and Research in Social Work

The uniqueness of the Department is that we offer a two-year postgraduate programme which is focused on providing the required theoretical inputs and practical experience through field work in equal measures. Our curriculum is designed such a way that besides the regular and multidisciplinary papers from various disciplines, the students carry out field work two days a week throughout the two-year programme. Depending on the optional paper studied, the students are placed in Industries or Psychiatric Hospitals, NGO's, Community Service Organization etc. In addition, Social Work Camp, Orientation Visits, Block Placements are organized by Department. It needs to be noted that the significance attached to the course is precisely due to the placement percentage which is very high for MSW-trained candidates.

- Courses offered:**
- 1) Master of Social Work (MSW)
 - 2) Post Graduate Diploma in Disaster Management (Self Finance)

Eligibility for Master of Social Work (MSW)

- ✦ A Bachelor's or equivalent degree in any subject from a recognised University with a minimum of 45% (40% in case of SC/ST and Cat-I)
- ✦ 50 % of the seats are reserved for BSW graduates
- ✦ There will be no Entrance Test.

FACULTY OF SCIENCE AND TECHNOLOGY

Department of Studies and Research in Biochemistry

Department of Studies and Research in Biochemistry offers M.Sc, and Ph.D. programmes. The staff of the Department is highly encouraging and comes from diverse teaching, postdoctoral research and industry experience. The staff of the department collectively work to inculcate into the students the capacity to learn and think independently, develop spirit of inquiry and critical thinking capability which may glint novel ways to identify unanswered global problems. We also strive to build confidence in our students and help them develop scientific temper by putting them under rigorous training, exposure to seminars, science quiz and project works. Over the years many students have cleared K-SET, GATE, and the successful students are placed in industry, institutions and CSIR and ICMR institutes for research. The curriculum has been designed in such a way that our students find opportunities in industry, educational institutions and National level institutes for research. Based on the past performance we believe that the students enter our department and the leader departs.

Course offered: M. Sc. Biochemistry

Eligibility:

- + Candidates who have studied Chemistry/Biochemistry as a cognate subject in B.Sc. along with two life science subjects.
- + Candidates who have secured an aggregate of 40% in all subjects and a minimum of 50% (45% in case of SC/ST and Category-I candidates) Cognate subject at Bachelor's level.

Department of Studies and Research in Mathematics

The Department offers M. Sc., and Ph. D. programmes in Mathematics. The faculty members in the Department specialize in emerging areas of research in Mathematical Sciences. The curriculum, which is on par with the UGC-NET curriculum, enhances the advanced skills needed for research and industry. The infrastructural facilities in the Department include a collection of more than 1200 books, and a few scholarly journals. We have organized more than 10 National Conferences/ Seminars/Workshops, besides publishing more than 50 research articles in National and International journals.

Course offered: M. Sc. Mathematics

Eligibility:

- ✚ Candidates must have studied Mathematics as a cognate subject in B.Sc. Degree and should have studied Mathematics in Pre-University course or at 10+2.
- ✚ Candidates must have a Bachelor's degree with an aggregate of 50% in Mathematics (45% for SC/ST and Category-I in Cognate Subjects) as the cognate subject and a minimum of 40% in all the subjects.

Department of Studies and Research in Library and Information Science

The Department offers Postgraduate and Doctoral Programme in Library and Information Science. There are five well-qualified teaching faculty members with rich professional experience. The Department has adequate infrastructure including a Computer Lab and Information Processing Tools. A considerable number of students of the Department have qualified UGC-NET

and KSET examinations. Eleven research scholars are engaged in doctoral research, of whom five are Junior Research Fellows. The Department has successfully organized five national conferences, one international conference and two workshops. *Saturday Mirror* special lecture series is a unique feature of the Department. Three major research projects and four minor research projects have been completed.

Department of Studies and Research in Physics

The Department offers Postgraduate and Doctoral Programmes in Physics. The aim of the Department is to give a thorough training to the students in the basics of Theoretical and Experimental Physics so that they can pursue their further studies in any branch of Physics. The faculty members in the Department have specialized in frontier areas in Physics and Materials Science and have published more than 200 research papers in peer reviewed International and National journals. The

Department has well-equipped, sophisticated instruments such as SEM, XRD, PL UV-Visible Spectrometer, etc. to take up advanced research in Physics and Materials Science. In the recent past, a considerable number of students of the Department have qualified CSIR/UGC-NET, SLET, GATE and other examinations. Eight research scholars have been awarded PhD and ten are pursuing doctoral research. At present, the department has various research projects funded by DSTNM, UGC, ISRO, NRB, IUAC and VGST.

Department of Studies and Research in Botany

The Department offers Master of Science course in Botany. The two-year course aims at providing knowledge about the basic concept concerning various areas associated in the field of studying biology of plants. It covers a wide range of scientific disciplines that study plants, algae, fungi including growth, reproduction, metabolism, development, diseases and chemical properties and evolutionary relationship between the different groups.

Studying M.Sc. in botany will also empower to understand and harness the power of plants for a diverse array of application such as climate change mitigation, ecological restoration and food production.

Course offered: M. Sc. in Botany

Eligibility:

- ✦ Candidates who have studied Botany as a cognate subject in B.Sc.
- ✦ Candidates who have secured an aggregate of 40% in all subjects and a minimum of 50% (45% in case of SC/ST and Category-I candidates) in Botany at Bachelor's level along with two life science subjects.

Department of Studies and Research in Zoology

The Department offers Master of Science course in Zoology. The Course is a 2 year post graduate academic degree programme which focuses on the studies, related to animals. It promotes the discovery and broad communication of knowledge about biology of animals and to understand life processes. It mainly includes the study regarding structure evaluation, embryology, anatomy, physiology, cell-biology, behaviour and distribution of living and extinct animals. The candidates those who have done B.Sc. programme can choose this master's course which opens up wide scope of securing a rewarding career in scientific aspects and gain knowledge in the core areas of Zoology and its specialization with respect to recent trends and areas of local importance.

Course offered: M. Sc. in Zoology

Eligibility:

- ✚ Candidates who have studied Zoology as a cognate subject in B.Sc.
- ✚ Candidates who have secured an aggregate of 40% in all subjects and a minimum of 50% (45% in case of SC/ST and Category-I candidates) in Zoology at Bachelor's level along with two life science subjects.

Department of Studies and Research in Organic Chemistry

The Department of Studies and Research in Organic Chemistry was established in the year 2018. The Department offers Master of Science in Organic Chemistry, the two years course involves the study of structure, properties and reactions of organic compounds of both natural and synthetic origin. The department has jointly organized KSTA/DST sponsored special lecture workshop on ‘‘Advances in Chemical Sciences’’. The department supports the students for learning the computer aided molecular studies of organic compounds. The department has published the articles in the Journals of National and International repute. The department has fully equipped laboratories for teaching and research programmes. The students who perceive M.Sc., in Organic chemistry have wide scope and opportunities in the field of teaching, industries, research and development.

Course offered: M. Sc. in Organic Chemistry

Eligibility:

- A Candidate must have secured 40% marks in aggregate and studied Chemistry (Cognate Subject) securing 50% marks in the subject at the B.Sc level (45% for SC/ST and C-1 candidates).

Department of Studies and Research in Biotechnology

Newly started Department of Studies and Research in Biotechnology aims to offer a promising syllabu to post-graduate studies in Biotechnology. There are sufficient facilities for conducting both practicals and theory needed for M.Sc in Biotechnology. The faculty members are well experienced and have secured research grants from various agencies for research.

Course offered: M. Sc. in Biotechnology (Self-Finance)

Eligibility:

- ✦ Bachelor's degree in Physical, Chemical, Biological, Agricultural, Veterinary, Fishery Sciences, Pharmacy, Engineering/ Technology, Horticulture, Dairy and Food Science from any University Recognized by UGC/ICAR/AICTE/Medical Council with at least 50 % marks (45 % in case of SC/ST and Cat-I candidates) in Optional subjects put together from all the years of the examinations of the course.

Master of Science in Research Methodology and Statistics

The Degree of Master of Science in Research Methodology and Statistics aims to strengthen the students both in the theoretical development and in the real life applications of modern statistical methodology so that they are better equipped for industries, research and development institutes and academic institutes. Keeping in mind the huge opportunity in the field of data analysis, the course is designed in such a way that it can provide first hand practical experience in handling modern statistical softwares in the analysis of such data.

Course offered: M. Sc. in Research Methodology and Statistics (Self-Finance)

Eligibility:

- Candidates for admission to the first year of the M.Sc. (Research Methodology and Statistics) degree program shall be required to have passed the BA/B.Sc./B.Com/BBM/BBA or any other equivalent degree examination with minimum of 50% of marks in the qualifying examinations. The SC/ST candidates must have minimum of 45% of marks in the qualifying examination..

FACULTY OF COMMERCE AND MANAGEMENT

Department of Studies and Research in Commerce

The Department of Studies and Research in Commerce was established in 1995 as one of the departments of the erstwhile Tumkur PG Centre of Bangalore University. The Department offers PG Programme M.Com alongwith Research programme leading to Ph.D. The curriculum has been designed to cater to the needs of the industry. The Department organises Workshops, Seminars, Conferences, live budget session and colloquia in order to expose students to the changing horizons of global trade and commerce. The department is well-equipped with intellectual and physical infrastructure which is necessary for making teaching and research more effective. We strive hard to nurture our students with employable skills to meet the needs of globalized business environment. A good number of graduates have been placed in better positions in corporate and academic sectors. Department has organized industrial visits and campus placement drive for the benefit of students.

Course offered: M. Com.

Eligibility:

- ✚ Candidates who have passed B.Com/B.B.M. or its equivalent degree examination with an aggregate of 50% marks in all subjects except languages. However, students belonging to SC, ST and Category-I with an aggregate of 45% are also eligible (except languages).

Department of Studies and Research in Commerce (Information Systems) M.Com (I.S)

M.Com (information Systems) course is a right mix of functional area of Accounting, Finance and Marketing along with information technology and requisite soft skills. This programme aspires to create professional capable of obtaining leverage through the power of data analytics on business trends and predictions, integrated technologies of different levels for offering competitive edge to industrial process and business. The programme offers synchronized curriculum coverings facets of business information system and management. To equip with essential skills required to identify opportunities in the era of business information systems and groom techno managers capable of adopting and handling challenging roles in the present competitive era.

Course offered: M. Com.–Information Systems (Self Finance)

Eligibility:

Department of Studies and Research in Business Administration

Master of Business Administration (MBA) Programme, with the approval of AICTE, strives to provide quality education to the rural mass. The Department equips students with the required interpersonal skills, problem-solving skills, and leadership skills to innovate and lead a life of successful business leadership and management, besides organizing co-curricular and extracurricular activities to sharpen organizing abilities, leadership qualities, team building spirit and creativity among students.

Learning is facilitated through ICT and a mix of classroom teaching, seminars, case studies, and industry internship. Industrial visits are organized to provide practical exposure to study the operations and management of the industry. The department, staffed with committed and experienced faculty with rich academic and industry experience, strives to provide placements in reputed industries by conducting placement drives.

Course offered: Master of Business Administration (MBA)

Eligibility:

- ✚ Centralised allotment of seats will be made by the Karnataka Examinations Authority, Bengaluru.
- ✚ Candidate with any recognized degree is eligible to apply.
