About Tumkur University

Tumkur University, which was started in the year 2004, is accredited NAAC Grade 'B' in 2012 and houses 17 postgraduate and research departments and a UG Fine Art department. It has two constituent colleges and more than 80 affiliated colleges. TU was started to address the needs of students for higher education in Tumakuru district. The university, with its vision of providing best and affordable global education and training to its stakeholders is surging ahead with its research-gearred mission of aiming to achieve human potential development through committed and dedicated efforts. The University is ensuring an effective application of integrated approaches in its dissemination of knowledge. Luminaries like Nobel Laureates, eminent personalities and distinguished Scientists/Academicians from various disciplines had visited and delivered lectures in various programs/events organized by Tumkur University. Tumkur University had hosted South Zone Youth Festival and also South India Student Research Convention 2017.

PES University, Bengaluru

PES University, located in Bangalore, India is one of the country's leading teaching and research universities. The University is committed to providing "education for the real world" that inspires students to realize their potential. Our students graduate with the ability to adapt to an intellectually and technologically changing environment. Over the years, we have accomplished this with the participative efforts of the management, staff, students and parents.

About the Gnana Samanvaya

To synergize the best practices in all higher education institutions through resource sharing towards achieving excellence.

Some of the objectives of Gnana Samanvaya are

To provide mentorship to students and faculty members on academic and research topics.

Conduct general and Industry-relevant skill development programmes.

Extend academic, technical and administrative support to students, faculty, research scholars and other members for such activities that enhance capabilities and skills by providing access to facilities and resources wherever possible.

Provide support and or jointly conduct seminars, training workshops, conferences and other such activities

Encourage participation of students and teachers in various conferences, seminars, symposia, workshops.

Facilitating student and teacher exchange programs, training and development programmes on best practices in academics, research, training and other activities.
